Alma Linux Networking On Off Command

Jan 2024

Introduction

Bringing the network UP and DOWN (or ON and OFF) in Alma Linux 8 is different from what we were used to in CentOS (7.x). The Network Scripts were deprecated in Red Hat 8 (So Alma Linux 8 and CentOS 8).

Set Network OFF

To set the network OFF Alma Linux 8 you need to use the following: (Bear in mind, all interfaces will go down, so if you are remote, best not to do this).

```
sudo nmcli networking off
```

Set Network ON

To set the network ON Alma Linux 8 you need to use the following:

```
sudo nmcli networking on
```
