

Dokuwiki Plugins

2016 - updated Mar 2023

Check these carefully, a lot of plugins have now been deprecated. —

Plugins can be searched and installed by clicking on the *Admin* link at the top of the page (you have to be an admin of course) then select the **Extension Manager** and you will be on the plugins page.

From there navigate to the third tab (**Search and Install**) and if you see a plugin you like, simply hit the install button.

Plugins Example Code

- [Colour Text](#)
- [Backup Tool](#)
- [SyntaxHighLighter](#)
