

# EL Advanced Parameters Linear Broadcast

Apr 2023

## EL Advanced Parameters Force Progressive Output

We can force the output of the EL to be progressive using advanced parameters, I do not recall if these work in HEVC or h264 or both.

For 1080p25 use advanced parameters:

```
filter.deinterlace.activeStandards=0  
filter.deinterlace.fullDeinterlace=0  
crossconversion.doNothing=true
```

For 1080p50 use advanced parameters:

```
filter.deinterlace.activeStandards=0  
filter.deinterlace.fullDeinterlace=1  
crossconversion.doNothing=true
```
