

MVP Log Files

Jun 2017

The log files for the Packager (and possibly the other v8 products) are held in the following location.

```
/var/log/mfvp/
```

If you list the files in this folder you will see the following;

```
drwxr-xr-x+ 3 envivio envivio 4096 Jun 12 07:59 cleanup-agent
drwxr-xr-x+ 3 envivio envivio 4096 Jun 12 07:59 dispatcher

drwxr-xr-x+ 5 envivio envivio 4096 Jun 8 15:59 statistic
```

Each process has its own log files, so the recorder process of the packager, that created the mezzanine files, keeps its logs in **packaging-dvr-recorder**.

If you list the contents of **packaging-dvr-recorder** you will see the following:

```
-rwxr-xr-x+ 1 root root 0 Jun 12 07:59 install.log
drwxr-xr-x+ 7 envivio envivio 4096 Jun 16 01:01 private
```

The log files are in the **private** directory.

```

There are general service log files in here for the packager-dvr-recorder. There are also logs specific to each service in folders that are the same as the service name. In this example we can look in the folder **service1**.
