

Encoding Live NTP Burn-In

Sep 2018

Updated Apr 2023

Introduction

In the MKEL we have the ability to burn in NTP information to the active picture, this is done via a couple of advanced parameters.

```
force.ntp.timecode=true  
burn.timecode=true
```

There are some other Advanced Parameters for this now, they are:

```
burn.utc=true  
burn.tc.fontsize=8
```
