

# Show/Set Date and Time

**Warning!** you can cause issues setting time manually, its best to use the built in tools unless your Pi is part of an offline project.

## Show the Current time

To show the current date and time, using the currently configured timezone, from the command line use:

```
date
```

## Show the Current UTC time

To show the current UTC time, from the command line use:

```
date -u
```
