

# CentOS 7 Gateways

Apr 2017

In CentOS 7 (as in previous versions) there is more than one place that a Gateway can be entered. Here is a list of possible places to check if you are having issues with contacting your device across a gateway.

```
/etc/sysconfig/static-routes  
/etc/sysconfig/network  
/etc/sysconfig/network-scripts/*  
/etc/rc.d/rc.local
```
